

# ÁRBOLES DE NAVIDAD DESAFÍO

#6

## · RESPUESTAS ·

La fórmula para el total es  $a + 3b + 3c + d = \text{número superior}$ .  
P.ej.  $10, b = 6, c = 4, d = 8$  funcionará para que el primer árbol dé  $10 + 18 + 12 + 8 = 48$
